LinkedIn: [linkedin.com/in/vinay-valson](https://www.linkedin.com/in/vinay-valson) | Portfolio: vin-dictive.github.io | GitHub: github.com/Vin-dictive

Skills

Frontend: React.js, **Next.js**, OJET, TypeScript, JavaScript, ES6, **Tailwind**, **Shadcn** UI, Responsive UI

Backend: Python, Django, FastAPI, Java, Node.js, Microservices, REST/JSON, SOAP/XML, NATS, API integration

Data: PostgreSQL, Oracle DB, SQL, JPA-ORM, schema design, query tuning, Alembic, DBeaver

Cloud and Delivery: AWS, GCP, Docker, OpenStack, CI/CD, GitHub Actions, Sentry, Inngest, Redis, NeonDB, Railway, Jenkins

Tools: GitHub, PostHog, PyTorch, YOLOv8, LLM workflows, RAG, FAISS, agent orchestration, Clerk, Cursor, Claude

Work Experience

Graduate Research and Teaching Assistant (Part-time)

January 2026 to Present

University of British Columbia | Vancouver, Canada

- Designed and deployed a full-stack **cow lameness** platform on **OpenStack** Arbutus: **Next.js** + **FastAPI** + Postgres + **NATS** job queue to a vGPU worker (**YOLOv8**, ByteTrack, DINOv3), with live demo at 134.87.8.85.
- TA for **Cloud Computing**: ran tutorials and office hours for **60+ graduate students** on distributed systems and deployment, and coached 12 capstone teams through architecture and design reviews.

Software Developer (Contract Part-time)

January 2026 to February 2026

Volentia Healthcare Translation | Vancouver, Canada

- Built and launched a **healthcare web application** in **two weeks**, unifying translation request workflows for **40+ users** across hospital staff, physicians, and research teams; implemented **CI/CD** and cloud deployment, plus review workflow automation with **human approval gates**.

Software Engineer (Full-time, Remote)

April 2024 to November 2025

Blue Rabbit Group Ltd. | Hong Kong, India

- Joined as the **first software engineer** and shipped the **Series A MVP** end to end with **Django** and **React** on GCP for **50+ clients**: order placement and client dashboards with **sub-second** median responses; integrated **DBS Bank** APIs.
- Designed **AI agents** with human review gates that automated analyst research and asset risk scoring, cutting analyst workflow time by roughly **70%** without added headcount.
- Drove the migration from monolith to **microservices** (Next.js, NeonDB, Inngest, Clerk on Railway), automated **monthly** personalized reports for **50+ clients**, and ran product funnels and A/B experiments with **PostHog**.

Staff Consultant, Software Engineer (Full-time, Remote, Onsite)

August 2021 to April 2024

Oracle Financial Services Software Limited | Bangalore, India, Hong Kong

- Led onsite **client-facing** delivery for **Oracle Banking Digital Experience (OBDX)** in Hong Kong across **fraud detection**, **FX** dashboards, payments, QR gateway, and open banking; promoted to **Staff Consultant** within a year.
- Built multi-tenant **open banking** and access management that reduced partner onboarding effort by approximately **40%**.
- Translated customer requirements into workable **PRDs** and production code; never closed “working as designed” without checking the PRD, and gated changes on POCs plus re-signed PRDs. Rising Star and Ever Ready awards.

Education

Master of Data Science

2025 to 2026

University of British Columbia | Vancouver, Canada

Cumulative Average 91.2, Academic Representative, Scholarship

Bachelor of Computer Engineering

2017 to 2021

Savitribai Phule Pune University, Army Institute of Technology | Pune, India

CGPA: 8.91, Scholarship, First Class with Distinction

Projects

- Cow Lameness Detection (live demo)** Crowdsourced pairwise scoring app plus GPU inference pipeline on OpenStack (Next.js, FastAPI, NATS, YOLOv8).
- Clarius Scanner Sales Forecasting** Graduate capstone: forecasting and exploratory analysis of external factors on Clarius Mobile Health monthly scanner sales in Canada and US.
- RAG Music Search Platform** Hybrid retrieval over Amazon Digital Music data combining BM25 keyword search with FAISS semantic search.
- CocoaBoard** Analytics dashboard with filtering, aggregation, and LLM chatbot-assisted exploration.
