Work Experience

Graduate Research and Teaching Assistant (Part-time)

January 2026 to Present

University of British Columbia | Vancouver, Canada

- Designed and deployed a full-stack cow lameness platform on OpenStack Arbutus: Next.js, FastAPI, Postgres, and NATS to a vGPU worker (YOLOv8, ByteTrack, DINOv3); live demo at 134.87.8.85.
- TA for Cloud Computing: tutorials and office hours for 60+ graduate students; coached 12 capstone teams through architecture and design reviews.

Software Engineer (Full-time, Remote)

April 2024 to November 2025

Blue Rabbit Group Ltd. | Hong Kong, India

- First software engineer; shipped the Series A MVP end to end (Django, React on GCP) for 50+ clients, with sub-second dashboards and DBS Bank API integration.
- Built AI agents with human review gates that automated analyst research and asset risk scoring, cutting workflow time by roughly 70% without added headcount.
- Migrated monolith to microservices (Next.js, NeonDB, Inngest, Clerk on Railway); automated 50+ monthly client reports; ran PostHog funnels and A/B experiments.

Staff Consultant, Software Engineer (Full-time)

August 2021 to April 2024

Oracle Financial Services Software Limited | Bangalore, India, Hong Kong

- Led onsite delivery of Oracle Banking Digital Experience in Hong Kong across fraud detection, FX dashboards, payments, QR gateway, and open banking; promoted to Staff Consultant within a year.
- Built multi-tenant open banking and access management that reduced partner onboarding effort by approximately 40%.
- Translated client requirements into PRDs and production code; gated releases on signed requirements. Rising Star and Ever Ready awards.
